

## Smart Women Finish Rich by David Bach

### **Book Review by a Barnes and Noble customer:**

"This book was an excellent read and should be a requirement in life. Bach gives honest, smart, and easy to understand financial advice laid out in 7 logical steps. He explains the importance of realizing your values because they are the driving force in your financial life. I loved this book so much that I bought it for my mother and a friend. It was an inspiration to me and I refer to it all the time! Since I finished reading it in March, I've written my values ladder, invested in a Roth IRA, maxed out my 401K, participated in my employee stock purchase plan, started paying cash for purchases, and most importantly, I've taken control of my financial future. Thank you so much David Bach! I'm looking forward to reading your next book!"
